FEATURE STORY – YOU, Part II: POSTED WEBPAGE(S)

WHAT'S DUE - WEBSITE UPLOADS

YOUR WEBSITE LOCATION   https://co4713-01.comm.msstate.edu/~netID

PART II

Complete the Template (provided)
File name: index.html

Template and File Locations: Class Website   https://co4713-01.comm.msstate.edu

Replace my dummy text and fake picture with your updated real text and real picture.
Add your video (embedded html from YouTube – instructions are in a comment in the source code).

Do not alter the CSS at all. Points will be dedicated for any CSS alterations.
I want everyone's work to look like the template for consistency.
The CSS and HTML coding are a bit more advanced than you most likely have experience with - ask questions as needed

Make sure you re-size your picture to 300 pixels wide at 72 dpi (ask how if necessary) and try to avoid a height of much over 350 pixels.
Easy Picture Swap: Crop and/or Resize (do not stretch or pinch): to 300x350px

Add a caption where my caption is. Leave the float and the positioning.

When adding your text - Word can add lots of funky formatting when copy/paste. Try cutting the first and last word out and adding back in in Dreamweaver.
Check for appropriate <p> </p> tags afterwards.

Post your video reflection to YouTube and follow the instructions to embed (share—> embed—> copy the html and paste into your document)

Update the email address
